Name: Dan Gabriel D. Jaraplasan

Section: BS CS 4B
Course: 16-607 16-608 16-609 21st Century IT Skills

Laboratory 10: Comparative Resume Generation using Multiple LLMs

Prompt:

Can you help me create a one-page professional resume using the following personal details:

Name: Dan Gabriel Jaraplasan
Phone: 09195796987
Email: dan.jaraplasan@gmail.com
Location: Ma-a, Davao City
Role Target: Web Developer (Entry-Level / OJT Applicant)

Summary: A 25-year-old Computer Science student eager to gain real-world experience through an OJT program. Enthusiastic about applying academic knowledge in a practical setting and contributing to a professional team.

Education:

- Bachelor of Science in Computer Science — Ateneo de Davao University (2021–Present)
- STEM Pre-Engineering and Architecture strand — Ateneo de Davao University Senior High School (2020–2021)

Skills:

- Frontend: React, HTML, CSS, JavaScript, Tailwind CSS
- Backend: MySQL, PostgreSQL, Python Flask, basics of C#, C++, Java
- Tools: GitHub, Visual Studio Code, pip, npm, MySQL Workbench, pgAdmin

Projects:

1. BG Boarding House Management System (Software Engineering 2, 2023–Present) — Built using Python Flask, MySQL, HTML, CSS, JavaScript. Includes Inventory, Contract, Property, and Employee Management modules.
2. EJP Gym Registration System (Full Stack Web Dev Course, 2024) — Built using Django REST Framework and ReactJS + Vite with JWT Authentication, Login/Registration, and PostgreSQL database management.
3. Architectural Infrastructure Calculator (Event-Driven Programming, 2022–2023) — Built using HTML, CSS, JavaScript. Calculates construction materials like cement bags and steel bars based on building dimensions.

Certifications:

- Cisco CCNA: Introduction to Networks

Use a clean, modern, and minimalist format with clear section headings. Keep it concise and suitable for entry-level developer applications in web development. Prioritize readability and professional appearance.

LLM Used

ClaudeAI - https://claude.ai/share/1605201b-8986-4983-b6a0-53fb577dc0f0
ChatGPT - https://chatgpt.com/share/69da2660-7d94-8321-85ff-857412b91a6c

ClaudeAI output:

DAN GABRIEL JARAPLASAN

Web Developer • Entry-Level / OJT Applicant

Ma-a, Davao City • 09195796987 • dan.jaraplasan@gmail.com

PROFESSIONAL SUMMARY

A 25-year-old Computer Science student eager to gain real-world experience through an OJT program. Enthusiastic about applying academic knowledge in a practical setting and contributing to a professional team.

EDUCATION

Bachelor of Science in Computer Science — 2021 – Present
Ateneo de Davao University

STEM – Pre-Engineering and Architecture Strand — 2020 – 2021
Ateneo de Davao University Senior High School

TECHNICAL SKILLS

Frontend	React, HTML, CSS, JavaScript, Tailwind CSS
Backend	Python Flask, MySQL, PostgreSQL, basics of C#, C++, Java
Tools	GitHub, Visual Studio Code, npm, pip, MySQL Workbench, pgAdmin

PROJECTS

BG Boarding House Management System — 2023 – Present
Software Engineering 2 • Python Flask, MySQL, HTML, CSS, JavaScript
Includes Inventory, Contract, Property, and Employee Management modules.

EJP Gym Registration System — 2024
Full Stack Web Dev Course • Django REST Framework, ReactJS + Vite, PostgreSQL
Implemented JWT authentication, login/registration system, and full database management.

Architectural Infrastructure Calculator — 2022 – 2023
Event-Driven Programming • HTML, CSS, JavaScript
Calculates construction materials (cement bags, steel bars) based on building dimensions.

CERTIFICATIONS

Cisco CCNA: Introduction to Networks • Cisco Networking Academy

ChatGPT output:

DAN GABRIEL JARAPLASAN

Ma-a, Davao City
■ 09195796987 | ■ dan.jaraplasan@gmail.com

PROFESSIONAL SUMMARY

A 25-year-old Computer Science student seeking an entry-level Web Developer / OJT opportunity. Eager to apply academic knowledge in real-world projects, contribute to a professional team, and continuously develop technical and problem-solving skills in web development.

EDUCATION

Bachelor of Science in Computer Science
Ateneo de Davao University | 2021 – Present

STEM (Pre-Engineering & Architecture Strand)
Ateneo de Davao University Senior High School | 2020 – 2021

TECHNICAL SKILLS

Frontend: React, HTML, CSS, JavaScript, Tailwind CSS

Backend: MySQL, PostgreSQL, Python Flask, C#, C++, Java (Basic)

Tools: GitHub, Visual Studio Code, npm, pip, MySQL Workbench, pgAdmin

PROJECTS

BG Boarding House Management System (2023 – Present)
- Developed a web-based system using Python Flask, MySQL, HTML, CSS, and JavaScript
- Implemented modules for Inventory, Contracts, Property, and Employee Management
- Collaborated in a team environment following software engineering practices

EJP Gym Registration System (2024)
- Built a full-stack application using Django REST Framework and React (Vite)
- Implemented JWT Authentication, user login/registration, and PostgreSQL database
- Designed responsive frontend and secure backend API integration

Architectural Infrastructure Calculator (2022 – 2023)
- Created a web-based calculator using HTML, CSS, and JavaScript
- Calculates construction materials such as cement and steel based on dimensions

PROJECTS

BG Boarding House Management System (2023 – Present)
- Developed a web-based system using Python Flask, MySQL, HTML, CSS, and JavaScript
- Implemented modules for Inventory, Contracts, Property, and Employee Management
- Collaborated in a team environment following software engineering practices

EJP Gym Registration System (2024)
- Built a full-stack application using Django REST Framework and React (Vite)
- Implemented JWT Authentication, user login/registration, and PostgreSQL database
- Designed responsive frontend and secure backend API integration

Architectural Infrastructure Calculator (2022 – 2023)
- Created a web-based calculator using HTML, CSS, and JavaScript
- Calculates construction materials such as cement and steel based on dimensions
- Focused on user-friendly interface and accurate computation logic

CERTIFICATIONS

Cisco CCNA: Introduction to Networks

ADDITIONAL INFORMATION

- Strong willingness to learn and adapt in a professional environment
- Team-oriented with good communication and problem-solving skills
- Passionate about web development and building practical applications

Comparison Table

Criteria	LLM #1	LLM #2
Structure	For the claude it priotize in following the structure based on the prompt. It stayed true to what was prompted.	Structure wise the output of ChatGPT also did not stray that much from the prompt, however it added more context and a “Additional Information” part at the end.

Clarity	Claude's output was more appealing; it added some colors, icons, and there are hierarchy of font sizes, font colors. You can also distinguish if a part is in a different category already.	For the ChatGPT output it very bland, it doesn't look appealing to my eyes.
Formatting	Both formats of the two LLMs have the same formatting.	
Overall Quality	Claude is better quality for me.	ChatGPT's output looks good for a draft.

Reflection

This activity involved using two large language models Claude and ChatGPT to generate a professional one-page resume using the same prompt. Comparing their outputs provided great insight into how different AI tools interpret identical instructions.

Overall, Claude produced the better result. The layout was cleaner and the wording felt more professional and direct. The headings were well-defined, and the project descriptions were concise, making it perfect for an entry-level web developer applying for an internship (OJT). In contrast, ChatGPT was more verbose. It even added an "Additional Information" section that I didn't ask for. While this showed some initiative, it made the resume longer than one page and slightly unfocused.

The main differences were in formatting and quality. Claude followed my request for a minimalist style more accurately, whereas ChatGPT took more liberties with the content. For my final version, I plan to use Claude's clean structure as the base while incorporating some of ChatGPT's detailed project outcomes where they add real value.

This exercise taught me that specificity is key when prompting. The more structured the instructions, the better the result. I also learned that different AI models have unique strengths and comparing them critically ensures a much higher quality final product than simply accepting the first draft you receive.

Final output

DAN GABRIEL JARAPLASAN

PROFESSIONAL SUMMARY

A 25-year-old Computer Science student seeking an entry-level Web Developer / OJT opportunity. Eager to apply academic knowledge in real-world projects, contribute to a professional team, and continuously develop technical and problem-solving skills in web development.

EDUCATION

Bachelor of Science in Computer Science — **2021 – Present**

Ateneo de Davao University

STEM – Pre-Engineering and Architecture Strand — **2020 – 2021**

Ateneo de Davao University Senior High School

TECHNICAL SKILLS

Frontend	React, HTML, CSS, JavaScript, Tailwind CSS
Backend	Python Flask, MySQL, PostgreSQL, C#, C++, Java (Basic)
Tools	GitHub, Visual Studio Code, npm, pip, MySQL Workbench, pgAdmin

PROJECTS

BG Boarding House Management System — **2023 – Present**

Software Engineering 2 • Python Flask, MySQL, HTML, CSS, JavaScript

- Developed a full web-based management system covering Inventory, Contracts, Property, and Employee modules.
- Implemented payroll management and building/room property tracking features.
- Collaborated in a team environment following software engineering practices.

EJP Gym Registration System — **2024**

Full Stack Web Dev Course • Django REST Framework, ReactJS + Vite, PostgreSQL

- Built a full-stack application with JWT Authentication and a secure login/registration system.
- Designed a responsive frontend with ReactJS + Vite and integrated a PostgreSQL backend via pgAdmin.
- Implemented full database management including table listing and CRUD operations.

Architectural Infrastructure Calculator — **2022 – 2023**

Event-Driven Programming • HTML, CSS, JavaScript

- Developed a web-based calculator for estimating construction materials (cement bags, steel bars).
- Supports multiple building designs and computes based on L×W×H dimensions.
- Focused on a user-friendly interface and accurate computation logic.

CERTIFICATIONS

Cisco CCNA: Introduction to Networks • Cisco Networking Academy

ADDITIONAL INFORMATION

- Strong willingness to learn and adapt in a professional environment.
- Team-oriented with good communication and problem-solving skills.
- Passionate about web development and building practical, impactful applications.
